cellular agriculture, cultured meat, social implications of technology, community based practice, cultivated meat and dairy

A corrigendum on

[The role of natural scientists in navigating the social implications of cellular agriculture: insights from an interdisciplinary workshop](#)

by Rao, V. V., Datta, B., and Steinmetz, K. (2023). *Front. Sustain. Food Syst.* 7:1134100. doi: 10.3389/fsufs.2023.1134100

In the published article, there was an error in the Funding statement. *We failed to include that the open access publication fees for this article were covered by Arrell Food Institute at the University of Guelph.* The correct Funding statement appears below.

Funding

KS was supported by a New Harvest Fellowship award and VR and BD were supported by New Harvest Dissertation Awards. New Harvest is a donor-funded 501(c)(3) research institute working to maximize the positive impact of cellular agriculture. Open access publication fees for this article were covered by Arrell Food Institute at the University of Guelph.

The authors apologize for this error and state that this does not change the conclusions of the article in any way. The original article has been updated.
