mulching practices, *Phaseolus* bean performance, economic analysis, sustainable food production, agro-ecological systems

A Corrigendum on

Impact of mulching treatments on growth, yields, and economics of common bean (*Phaseolus vulgaris* L.) in Eastern Tanzania

by Ramadhani, A. M., Nassary, E. K., Rwehumbiza, F. B., Massawe, B. H. J., and Nchimbi-Msolla, S. (2024) *Front. Sustain. Food Syst.* 8:1455206. doi: 10.3389/fsufs.2024.1455206

In the published article, there was an error in the Funding statement (unintentionally overlooked the inclusion of an acknowledgment statement). The correct Funding statement appears below.

Funding

The author(s) declare financial support was received for the research, authorship, and/or publication of this article. The authors acknowledge material and financial support from the FoodLAND project. FoodLAND has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement (GA No 862802). The views and opinions expressed in this publication are the sole responsibility of the authors and do not necessarily reflect the views of the European Commission. We thank all the FoodLAND partners and field staff for their support when doing this research.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

Publisher's note

All claims expressed in this article are solely those of the authors and do not necessarily represent those of their affiliated organizations, or those of the publisher, the editors and the reviewers. Any product that may be evaluated in this article, or claim that may be made by its manufacturer, is not guaranteed or endorsed by the publisher.
