informed consent, deferential vulnerability, self-worth, vascularized composite allotransplantation, autonomy, bioethical assessment

A Corrigendum on

Are face transplant candidates choosing autonomously? A preliminary method to evaluate autonomous choosing in psychosocial and bioethical assessments

By Farías-Yapur A (2024). Front. Transplant. 3:1346667. doi: 10.3389/frtra.2024.1346667

Incorrect Funding

In the published article, there was an error in the Funding statement. The statement did not acknowledge the funding that made it possible to publish the paper. The original text stated: "The author declares that no financial support was received for the research, authorship, and/or publication of this article." The correct Funding statement appears below.

Funding

"The author declares that financial support was received for the research, authorship, and/or publication of this article. Publication of this article was made possible via the UKRI funding awarded to the Frontiers special issue editor Fay Bound Alberti, MR/S017356/1."

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
