A Corrigendum on

Focal Cortical Resection and Hippocampectomy in a Cat With Drug-Resistant Structural Epilepsy

by Hasegawa, D., Asada, R., Hamamoto, Y., Yu, Y., Kuwabara, T., Mizoguchi, S., et al. (2021). *Front. Vet. Sci.* 8:719455. doi: 10.3389/fvets.2021.719455

In the original article, there was a mistake in **Figure 4** as published. The left and right sides of the middle and right colored apparent diffusion coefficient maps of the lower row in the original article were reversed. The corrected revised **Figure 4** appears below.

In the published article, there was an error in affiliation 2. Instead of “Research Center of Animal Life Science”, it should be “Research Center for Animal Life Science.”

In the published article, the title of Dr. Masaki Iwasaki was missing. His title is “MD, Ph.D.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

FIGURE 4 | Preoperative isotropic diffusion-weighted imaging (upper row) and colored apparent diffusion coefficient maps (lower row). Bilateral hippocampi and the right amygdala and temporo-occipital cortex showed hyperintensity, but there were no significant changes on the apparent diffusion coefficient map.
